

## Industries

### Manufacturing

Shifting tax codes, globalization, outsourcing. These developments continue to challenge the manufacturing and distribution industries. Add to those volatile energy and raw material costs and extensive government regulation and it becomes essential for business decision makers to have reliable professional expertise to guide them.

Through years of working with manufacturing and distribution firms, EisnerLubin remains at the leading edge of managing the ever-shifting market forces affecting these industries. For example, outsourcing / offshoring manufacturing processes and importing the finished goods for distribution stateside is often an attractive alternative, yet fraught with new and complex accounting and tax planning issues.

EisnerLubin's services have adapted to keep pace with industry needs. These include:

- Determining your eligibility for Research & Development (R&D) tax credits
- Helping optimize inventory techniques and CFO/Controller functions to facilitate timely management decisions
- Being knowledgeable about the substantial tax credits available through New York State's Empire Zones program
- Affiliating with [Geneva Group International \(GGI\)](#), a worldwide alliance of professional services firms, to better advise clients about the unique legal, fiscal and economic considerations of doing business abroad

Our partners and professional staff have solid manufacturing and distribution industry experience. Fledging start-ups to mature businesses all rely on EisnerLubin for guidance with:

- [Tax planning and reorganization tax savings](#)
- Inventory management
- Forecasting and budgeting
- Inventory control management
- Exit strategies
- Outsourced accounting and CFO services
- Employee benefits plan audits and preparation of Form 5500
